PK-2P 12V

ELECTROMAGNETIC RELAY

www.fif.com.pl

F&F products are covered by an 24 months warranty from date of purchase

PURPOSE

Electromagnetic relay in single-module casing intended for direct assembly on the rail TH-35.

FUNCTIONING

Application of the supply voltage to the coil of relay will cause switch joints in positions 8-9 and 11-12. This is indicated by shine a green LED. After the outage, the power joints back in positions 8-7 and 11-10.

ASSEMBLY

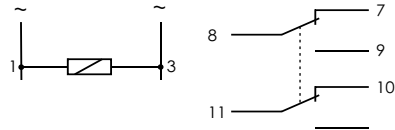

1. Take OFF the power.
2. Put on relay on the rail in the switchgearbox.
3. Connect to system with wiring diagram
