

# Product Technical Data Sheet

## Machine cup grease

Product designed for lubrication of various bearings, joints and guideways. It works in temperatures from -24°C to 135°C at high loads. Resistant to washing-out with cold water. Provides protection against corrosion.

### Application:

- bearings,
- guideways,
- provides protection against corrosion.

### Physicochemical properties:

Parameters	UoM	Result
Penetration after kneading at 25°C	mm/10	280
Lubricating properties; important welding	daN	200
Droplet temperature	°C	192
The viscosity of the base oil at 100°C	mm <sup>2</sup> /s	13-16

### Packagings:

Volume	Type of packaging	Collective packaging	Item Code
65 ml	squeezer	6 / 24	ART.AGT-078

### Warehousing:

Store in a well-ventilated, cool and dry place. Keep containers tightly closed when not in use.

Data contained in this document are consistent with the current state of our knowledge. They describe typical product properties and applications. However, it is up to the user to examine the suitability of this product for specific applications. We deny liability for the obtained results on the grounds that application conditions lie beyond our control.
